

GOOD DOGS GROWL!

A growl can have many meanings:

- I'm scared
- I'm hurt
- I'm playing
- I'm uncomfortable
- Please give me space

GROWLING ISN'T AGGRESSION

...it's communication. Learn what your dog is telling you so your best friend doesn't feel the need to escalate to biting!

DON'T PUNISH COMMUNICATION.

Respect that a growling dog chose to communicate appropriately rather than biting. Thank them by listening to their warning and giving them space. Never punish a dog for growling - next time, they may skip the warning.
